OFFICE OF THE TOWNSHIP ENGINEER

PRESTON DRIVE IMPROVEMENTS

Letter to Residents

**Preston Drive
Nassau Court**

June 29, 2017

Dear Resident,

This is an update from our May 27, 2017 letter. Please be advised that the contractor is scheduled to start moving in construction equipment on or about July 5th, 2017, weather permitting. Construction will **not** begin before or on July 4th.

Construction will begin with improvements to the stormwater drainage system within Preston Drive and will follow up with milling and paving operations. During construction some driveway aprons will need to be modified to meet the new pavement. Some driveway aprons may also be removed as part of the stormwater improvements process. All aprons will be restored at the same time as the milling and paving process. Any driveways to be modified will not exceed the Right of Way limits. Please refrain from placing any leaves or debris at the road edge so it does not interfere with the work.

Please be advised that vehicular access to your property will be limited / inaccessible during this process. Please plan accordingly. The road will be fully open by the end of each day.

To receive email notifications of this project and other road improvement projects, please register at the Township's website. You can register to receive these updates by going to www.branchburg.nj.us, on the home page, click the words "Email Alert" and sign up for either email alerts or text message alerts.

If you should have any questions please contact Engineering Department at 908.526.1300 ext. 142.

Sincerely,

Stefanie Williams
Staff Engineer
