

Retail Foods:

The Branchburg Health Department annually inspects all licensed food establishments at least once per year. This includes an onsite physical inspection, a report of current findings and the posting of a rating card through the enforcement of state and local codes for retail food establishment. NJAC 8:24.

Our objective is to protect and promote proper handling of food in all retail food establishments and includes:

- issuing a retail food establishment license
- conducting inspections of retail food establishments
- reviewing design plans of new retail food facilities
- investigating food borne illness complaints

If you have any questions or need assistance please call the Branchburg Health Department.
